CAREER OBJECTIVE

- Entry-level Full-Stack Developer experienced in building scalable web applications using JavaScript, React.js, and Node.js.
- Strong foundation in MERN stack with hands-on experience in authentication, RESTful APIs, and frontend–backend integration.
- Seeking a full-time software development role to contribute to real-world solutions and grow within a collaborative environment.

PROJECTS

Job Portal – Full-Stack MERN Application

- Developed a full-stack MERN job portal with complete frontend–backend integration.
- Implemented secure JWT-based authentication and authorization workflows.
- Designed and integrated RESTful APIs to manage job postings, applications, and user workflows.
- Built protected routes and enforced role-based access control across the application.
- Handled resume uploads and storage using Cloudinary with validation and error handling.
- Delivered a responsive, performance-optimized UI across desktop and mobile devices.
